

Executive Biography

Clement Moreau

Chief Executive Officer, Sculpteo 3D Printing Service

As CEO, Clement sets the strategic vision for Sculpteo and drives operational results. Clement is heavily focused on Sculpteo's growth, including the last Series C capital raise.

Clement is 38 years old and brings 10 years of R&D experience in various industries. He co-founded Sculpteo in 2009 with Eric Carreel, a serial entrepreneur.

Clement holds a master's degree in engineering from the famous Centrale Paris Engineering School.

Prior to Sculpteo, Clement was Software R&D Manager at Thomson, a major electronic device manufacturer in Europe. He developed and managed technical software features for major commercial successes of the telco division of the group. His products are still used by millions of clients from Saudi Arabia to France and United Kingdom.

Sculpteo is an online 3D printing service based in San Francisco and Paris.
