Executive Biography

Eric Wiesner

General Manager
HP PageWide Industrial
HP Inc.

Eric is General Manager of HP's PageWide Industrial division, which includes the broad portfolio of PageWide Web Presses and Scitex Industrial Presses. The division offers leading digital solutions addressing the corrugated packaging, high-volume commercial, and sign & display segments. R&D, operations, and marketing sites are in Netanya, Israel; San Diego, California, and Corvallis, Oregon.

Eric's HP career began in 1984 as a materials engineer in HP's printed circuit division. During his 33 year HP career, he has held engineering and leadership positions in supply chain, manufacturing, and research and development. Previously, Eric was R&D director for the central development lab for HP's Graphics Solutions Business. There he led development of digital inks, media coatings, materials, long-life consumables, and software solutions used today by all of HP's graphics businesses.

Eric holds a BS degree in Mechanical Engineering from the University of Texas at Austin. He makes his home in San Diego.
