- Expanded color capabilities: 6 or 7 ink stations
- Auto Alert Agent: Enables on-press quality alert system, Inline print quality inspection system, automatically discard defective sheets
- One Shot process kit: Enables printing on synthetics, metalized and canvas using HP Indigo One Shot technology
- Auto Alert Agent +: On-press quality alert system that automatically discards defective sheets and reprints
- HD Imaging: 812 DPI at 8-bit, writing system addressability: 1625 dpi (virtual 4876 x 4876 dpi)
- Fineline RIP: 1625 DPI at 8-bit full pipeline (HD Imaging is pre-requisite for this option)
- 600-micron kit: Supports media up to 600 microns thick
- 5 input source feeder: Additional two drawers that connect to the existing two drawers and pile
- In-line finishing connector: Allows in-line connectivity to verity of Indigo's finishing partners
- Dual X-align: Align sheets to both operator and non-operator side

THE POWER OF “YES”
The press that will have you saying yes to any application, on any substrate, in any run length.
Dare to Imagine new business opportunities in commercial print.

HP Indigo is redefining the role of digital with advances that blur the boundaries between all forms of print production. Digital isn’t just for short runs anymore, longer runs can now affordably utilize digital flexibility. You get the look, feel and operational familiarity of offset, and labor-saving automation, at speeds that are already leading the market. It’s your turn to thrive in a marketplace booming with new, high-margin ways to grow. With HP Indigo, you can start moving ahead of your competitors today.

All-powerful. All-purpose. All jobs.

The road to digital print success is paved with the ability to say yes to any request. Any run length, any substrate, any color—say yes to it all.

- Do it all with a single press, from general commercial print applications and high end photo printing to folding cartons, secure documents, gaming and more.
- Widest substrate range in the industry. 75-600 micron media. Virtually endless substrate types (uncoated, black and colored, synthetics, metalized and more).
- Beyond-offset quality with HD imaging option; variety of print quality modes
- FM Screen for the sharpest, smoothest prints possible, eliminating moiré effects altogether, for detailed images or photos, halftone text and more. Available on HD presses.
- Superior capabilities for small solid text and fine lines
- Achieve perfect color across Indigo presses, sites, and between Indigo and offset - day in and day out
- Flexibility in switching between and integrating substrates seamlessly even within a single job.

Your quality defines you. It’s the press that lets you say yes to every job with unshakable confidence and unmatched quality.

Maximize total uptime

Leverage world renowned automation and workflow optimization tools to get more done in a single shift. From nonstop feeding, to preventive care, AI-based tools and more.

- Leverage state-of-the-art machine learning, and sophisticated algorithms to boost productivity. Increase press availability through automated processes including automatic color calibration.
- Automatic detection of print quality defects, and immediate reprint while diverting defective sheets to scrap.
- Non-stop feeding technology with the digital flexibility of five input sources for true continuous digital printing.
- Proactive press care predicts potential downtime before it happens and alerts the operator to prevent it from occurring.

PrintOS

Unleash the performance of your HP Indigo press with a suite of solutions that enables you to create your Print Factory of the future.

SERVICES
Enable your operator to get the most out of your press by building the skills and confidence to be successful.
