INDIGO

GEM

This fully digital, integrated product provides print and embellishment in one-pass with breakthrough productivity, enabled by a unique workflow. Work with a wide range of embellishments, and enjoy instant proofing and same-day delivery, even with variable design.

SHINE IN ONE STEP

The same-day, one-pass solution for fully digital printed and embellished labels.

Shine in One Step with Digital Embellishments

In an increasingly competitive, faster-changing world, brands are doing everything to make their products shine with outstanding shelf-appeal and move away from commoditization. Embellishments are the most traditional way to make packaged products stand out, but the need for more agile production calls for a change in how embellishments are done.

We invite you to step into the next digital revolution with HP Indigo GEM. Integrated with the HP Indigo 6K Digital Press, this fully digital print-and-embellish one pass solution provides a wide range of embellishments with breakthrough productivity. All the commonly used embellishments: foil, spot varnish, tactile, cast & cure are now digital, variable, personalized on-demand and have all HP Indigo Smartstream Designer Capabilities. Use GEM Continuous Printing Mode to print embellished jobs one after the other, non-stop, without changing machine setup and with no waste. Enjoy instant proofing and same day delivery even for labels with variable embellishments design.

Multiply business opportunities

The power of HP Indigo's technology

The perfect equation

Breakthrough productivity, with a unique workflow

Digitally print and embellish in one pass. Help eliminate analog processes, costs, and complexities. Enjoy an efficient, flexible production line with zero tooling. Minimize waste through Continuous Printing Mode and shorten lead time.

- Radically simplify to a digital, single, and integrated print and embellishment process.
- Help eliminate the cost, time, and labor required by analog tooling, including make-ready and setup times.

- Become more efficient than ever by printing embellished labels one after the other, non-stop, with zero waste, regardless of label design, repeat length and size using our Continuous Printing Mode.
- Add any type of embellishment without slowing down your press.

- Expand your offering with digital embellishments including, foil, spot varnish, tactile, and cast and cure—and every possible combination.
- Add high-value, high-margin features from brand protection and security to one-of-a-kind variable designs.
- Get perfectly matched variable data in both print and embellishments—including security—automatically.

New, endless profitable possibilities

Amaze brands with new ways to embellish labels for innovative shelf appeal. All the commonly used embellishments are now digital, variable, personalized, and on-demand.

Instant proofing, same-day delivery

Offer your customers an entirely new experience from a shorter approval process to more options with multiple versions—all while helping to reduce your lead times and speeding your time-to-market.

- Save your customers' time with the convenience of job proofing, without the wait.
- Speed selection and approval processes by easily presenting multiple versions of embellished jobs.
- Correct and make changes on-the-fly without retooling or repeat customer visits.
- Deliver same day, even with print and embellishments variable data, leveraging all the advantages of digital.
